PERSONAL PROJECTS

Best Sellers (03/2023 - 04/2023) ⧉
- An Entry level Application for Selling and Buying Books Online.
- In this Application Registered Users can sell and buy virtual books with a price tag according to the market.
- Django authentication helps to restrict access to external users.
- Owner of the book has the primary access to view, update and delete books. A third person can download the book only if he/she has paid for it.
- Additional features like Book reviews and ratings are also included in this application.
- Customers can post their reviews for books they have read. Users can see those reviews and decide whether it is worth or not.
- **FINDINGS**
- This application has helped me in understanding the core Django Security features and ORM.

Simple Blog Application using Django ⧉
- My first Django Project which applies CRUD features.
- Helps me to acquire basics to some advance django concepts.

Team Member Allocation App Using React
- An Entry level application for assigning members for a team in an Organization.
- Admin has the overall control of this application.
- **FINDINGS**
- This application has helped me in understanding the core JavaScript and React concepts like Hooks, Context API etc.
- Research done based on React hooks for developing this application.

SKILLS

`Understanding of HTML5 and CSS3`
`Core & Advanced Python` `OOPS`
`Data Structures` `Django Framework`
`Understanding of Django ORM Libraries`
`REST API` `ES-6 JavaScript` `React Framework`
`MySQL` `Basic understanding of GIT`

ACHIEVEMENTS

State Level Participation in Football

Member of College Cultural Orgainzation

TRAINING

Right Soft Options, Kochi (08/2022 - 03/2022)
Training for Python Full Stack Development

TECHNICAL EXPERIENCE

Python Internship Trainee
This Python Training has helped me to get a complete understanding of Front-end and Back-end Development and the process of linking them. I have created web applications based on Django and React Frameworks.
